Stiffened Controls Now In Effect May **Curb Credit Buying**

Washington, Sept. 20 (P)—Federal control of installment buying returned today after a 11-month

During that time the volume of time buying mounted to a record of nearly \$7,500,000,000.

Some auto dealers and finance men predicted the generally stiffer terms will put the skids under the premium prices for used cars and put late models beyond the reach of many families.

selling for \$1,800 the purchaser must pay down \$600 and \$80 a month for 18 months. Monthly payments alone take a fourth of the income of a \$3,840 a year family. And it costs money to op-

The Federal Reserve Board, which fixed the credit terms un-der authority voted by Congress last month as an anti-inflation step, had more limited expectations-that the growth of the time buying debt would be slowed, not stopped or cut back.

Auto Backlog Heavy Representatives of the auto manufacturers say the controls will not affect new car sales. They point to a backlog of orders for all cars that can be turned out in the next two years-when the controls are scheduled to expire and terms for new cars have been about as tough as the new ones.

Plot To Sell Imitations Hinted By Police

In general, the federal controls require a one-third down payment in cash on autos, and a one-fifth down payment on the other items largest and most famous diamonds to which they apply, provided the

selling price is over \$50. If the balance due after the downpayment is over \$1,000, it must be paid off in 18 months, with a \$70 minimum installment. If less, it must be paid in 15

LOGGERS MEET AT IRONWOOD

Annual Congress Will Be Sept. 23 To 25

IRONWOOD, Mich.—(Special) -This city today was preparing for one of the biggest events ever held in the area—the third annual Lake States Logging Congress. The affair, which will be held Thursday, Friday and Saturday, is sponsored by the Timber Producers Association of Upper Michigan and Wisconsin.

Highlighting the congress will be a parade through the business districts of Ironwood and Hurley Thursday afternoon. It will include bands, drum corps, floats, industrial machinery, sawmill and logging teams and equipment, forest products, riding horses and other items connected with the timber industry.

A banquet will officially open

On Friday morning the equipment exhibit area will be opened at the Gogebic County Fairgrounds. Throughout the day, forum discussions, speeches by leaders in the timber industry and conservation and moving pictures will occupy delegates to the Con-

Biggie Munn Finally Pleased With MSC

East Lansing, Sept. 20 (AP) -Head Coach Clarence L. (Biggie) Munn today began gearing his Michigan State college football machine for the opener here Saturday against Michigan.

Munn was worried about a handful of injuries which were still sidelining some of his leading players, but he was more confident of his team's scoring power as a result of the varsity team's showing in an intra-squad game Saturday which wound up the rought part of the pre-season

practices. The white-shirted varsity smothered a "black" team composed mostly of junior varsity players, 61-6, and exhibited a running attack which drew praise even from the cautious Munn. Fullback Jim Blenkhorn and right halfback Lynn Chandois each scored two touchdowns, and left halfback George Guerre scored one himself and threw a touch-

down pass to Chandnois A probable starting lineup for the University of Michigan game was released by Munn:

MacArthur Answers Reds

GENERAL MacARTHUR has given the obvious and the perfect answer to the Russian charges that he was hampering Russians criticized MacArthur for his ban against strikes by government workers.

MacArthur simply told the Russians to practice what they preach. It is laughable to hear the Russian's criticize anyone for establishing a ban against strikes by government workers. In Soviet Russia anyone who would dare walk off his governmentassigned job would be severely punished. If he was not shot immediately for his "crime against the state," he would be hustled off to Siberia for a lifetime of slave labor under the most gruesome living conditions.

The supreme Allied commander in Japan gave some pretty good advice to the Japanese labor leaders, too. He told organized labor in Japan that its greatest danger lies in Communism. MacArthur spoke bluntly and frankly when he told Japanese labor that under Communism, the trade union

movement would be the first to perish. The efforts of the Russians to convey the impression that Communism is fighting on the side of free labor are getting nowhere in Japan, MacArthur reported.

BY DREW PEARSON

Washington. — Governor Dewey has dropped the hint to one or two Republican senators that he would like to engineer some boosts in government salary after he comes to Washington next January.

Talking to Senator Styles Bridges of New Hampshire, chairman of the powerful Senate appropriations committee, Dewey said ne wanted to bring Paul Lockwood, hisastute confidential adviser, and several others of his brain trust to help him in the White House.

"But," added the governor, "they can't afford it on present government salaries." Therefore he asked Bridges to put through some legislation increasing government pay scales.

"Well, if it's for Earl Warren, or any of the men around you," replied the New Hampshire senator, who has a New England conscience when it comes to money, 'I'm sure we can do it.'

"But, if you're talking about bureaucrats personally," he continued, "hell, no! I'm dead opposed to it. We've got to show that we're not going to load up the government with expensive bureaucrats. Furthermore, I know that John Taber will feel the same way. A few key executives may deserve increases, but otherwise absolutely no."

Dewey let the matter drop. However, the conversation indicates that the new Republican president-if elected-isn't going to have altogether plain sailing with his Congress.

Veterinary Student Completes Duties Here; Returns To MSC

Leaving town last weekend was ! a young man who has done much good in Delta county. A lot of city dwellers have probably never met him, but the rural folk of Delta county have come to know him quite well in the five weeks he has worked here.

He is Edward Dowdye, Negro, formerly of Kinsaie, Montserrat, British West Indies, who is now a student of veterinary medicine in Michigan State College in East

Dowdye arrived in Escanaba Aug. 8, from East Lansing, and has been working in the Department of Agriculture laboratory in Escanaba. His work has been concentrated on efforts toward control of brucellosis, a disease of cattle which causes undulant fever in human beings, and eradication of tuberculosis in livestock.

Came to U.S. In 1938

Ed came to the United States in 1938. He was naturalized as an American citizen in 1945. Prior to enrolling in Michigan State College, he was engaged in agricultural work in Maryland schools, following bestowal of a bachelor of science degree in agriculture by Hampton college in West Virginia. We don't like crow. In fact, we hate crow. But we picked Ironwood over Escanaba Friday night. So the Eskymos fed us crow Saturday morning—early, too!!

But we still say it looked like an Ironwood win-on paper. The only trouble was (and we hasten to get this in before someone beats us to it), they didn't play it on paper.

They played it in Ironwood, and even that didn't help. The Red Devils were clearly outclassed. The Eskymo line had drive. The backs had drive. Even when tackled they were brought down moving forward. The backs handled the ball well, and they were smart in picking their holes at that right instant when interference became bottled up. That's, the story from our Ironwood

Ironwood had won two, was undefeated and unscored on and had a bit the better shake of it on returning lettermen. But they were outclassed by a fast, alert band of Eskymos. Congratulations, gang! No more crow for us for the rest of the season. We've had our share,
